

Sample Resolution

Forum: Social, Cultural and Humanitarian Committee

Question of: Elimination of anti-immigrant sentiments

Submitted by: [name of the main submitter]

Co-submitted by: [names of co-submitters]

A resolution cannot have multiple main submitters. The number of co-submitters should be at least one-fifth of the house. A delegate can co-submit only one resolution per agenda item.

THE GENERAL ASSEMBLY,

Fully alarmed by the discrimination and xenophobia that immigrants face mostly in migration-receiving areas,

Underlining the importance and positive impact of providing immigrants job opportunities equally on the economy of the host country,

Deeply convinced that immigrants' international protection needs should be provided by the concerned government regardless of immigrants' migration status,

Reaffirming the Universal Declaration of Human Rights of 1948, which suggests that all individuals have the right to have their fundamental needs covered regardless of their race and financial situation,

A comma is placed at the end of each preambulatory clause.

1. Encourages the Member States to put the appropriate systems in place in order to ensure the welfare of immigrant children by means of providing them equal education opportunities as well as psychological support for their healthy adaptation to their country of destination;

A semi-colon is placed at the end of each operative clause.

2. Recognizes the contribution of the UNHCR (United Nations High Commissioner for Refugees) in the process of protection and integration of immigrants to their host countries;

The full names of abbreviations should be stated at least once throughout the document.

3. Invites all States to take appropriate actions in order to preclude the violation of immigrants' human rights, eliminate any kind of violence or discrimination they are facing and accelerate their reintegration process with measures such as but not limited

to:

- a) training all government officials thereupon via obligatory seminars
- b) sustaining regular medical examinations which are free of charge to immigrants for 6 months following their arrival

If the main body is succeeded by a sub-clause, a colon is placed at the end of the main body. (The same applies to when a sub-clause is succeeded by a sub-sub-clause.)

- c) providing immigrants night schools and job training as well as guidance about their rights and the job application procedure which will:
 - i. aim to help immigrants' social integration and ensure their self-dependence
 - ii. be certificated and will be deemed as valid documents for their recruitment;
- 4. Urges the Member States to ensure the proper enforcement of their labor laws, given their commonness, particularly focusing on the underqualified working conditions and underpayment of immigrants via regular inspections on companies;
- 5. Decides to remain actively seized of the matter.

A period is placed at the end of the resolution.

In their resolution-writing process, delegates are expected to abide by the format this very sample has. Resolutions should be written in Times New Roman pt. 12 with 1.5 line spacing. Each document must include at least 4 preambulatory clauses and 7 operative clauses. Preambulatory phrases should be typed in *italic* and operative phrases must be underlined. A clause cannot have one sub-clause, if that is the case, the sub-clause needs to be merged with the main body. Sub-sub-sub-clauses are not allowed in KMUN2021. United Nations Development Programme and General Assembly committees are not allowed to condemn or demand an action while the Security Council is eligible to urge, demand, authorize or condemn an action.

Preambulatory Phrases		Operative Phrases	
Accentuating	Fully believing	Accepts	Has resolved
Acknowledging	Fully convinced	Affirms	Instructs
